

Omkar Patel

Full Stack Developer Intern Candidate

Portfolio: omkaarr.github.io

+91 90985 54677 · omkarpatelhere@gmail.com · GitHub: [Omkaarr](#) · [LinkedIn](#) · Pune, India

Profile

Full Stack Developer (Beginner) with strong fundamentals in HTML, CSS, JavaScript, Node.js, and Express.js. Experienced in building responsive web applications with real backend logic, integrating databases, and using version control with Git. A fast learner eager to contribute to live projects, collaborate with development teams, and grow through hands-on mentorship.

Education

MIT World Peace University (MIT-WPU), Pune	Jun 2023 – Present
B.Tech in Computer Science Engineering (Cybersecurity)	CGPA: 7.74
Achievement: SIH (Smart India Hackathon) 2 nd Round Qualifier	
O.P. Jindal School, Raigarh, Chhattisgarh	Mar 2008 – Jun 2022
10 th : 68.8% 12 th : 67.8%	

Technical Skills

Frontend	HTML, CSS, JavaScript, Responsive UI Design	Backend	Node.js, Express.js, Flask
Databases	MySQL, MongoDB, SQLite	Languages	JavaScript, Python, C++
Version Control	Git, GitHub	Design / Tools	Figma, VS Code
Core Concepts	DSA, OOP, REST APIs, Problem Solving		

Projects

Web-Based Image Encryption Tool	Apr 2025 – May 2025
Role: Lead Developer & UX Designer Stack: HTML, CSS, JavaScript, Python	
- Built a fully responsive web application for image encryption/decryption demonstrating end-to-end full stack thinking. - Integrated backend encryption logic with an interactive frontend; reduced manual encryption time by 60% via optimized processing and real-time UI feedback.	
PUF-Based IoT Authentication System	Aug 2025 – Oct 2025
Role: Lead Developer Stack: ESP32, Python, Flask, HMAC-SHA256, MQTT	
- Built a secure backend authentication system using Flask REST APIs and MQTT messaging; implemented HMAC-SHA256 achieving 100% authentication accuracy. - Collaborated across hardware (ESP32) and software layers, demonstrating cross-stack development ability.	
AI-Based Carbon Emission Calculator	Aug 2025 – Oct 2025
Role: UX Designer & Data Engineer Stack: Python, Scikit-learn, Pandas	
Designed user-facing interface and data input flows for a regression-based prediction tool; performed feature engineering achieving R² = 0.87.	

Competitive Programming

Active problem solver on **Codeforces** — consistent practice in Data Structures & Algorithms, building strong debugging and analytical skills under time constraints.

Achievements & Activities

- SIH 2nd Round Qualifier** — Selected through a competitive national-level hackathon at MIT-WPU.
- PowerPoint Presentation Leader** at O.P. Jindal School — experience presenting technical ideas clearly.

Soft Skills

Communication • Team Collaboration • Adaptability • Time Management • Analytical Thinking • Problem Solving

Available for Hybrid Internship (Remote + On-site as required) · Immediate Joiner
